

U.S. Blocking Probe of Car Use by Dr. King

WASHINGTON (AP) — The Justice Department asked a federal court today to put an end to grand jury investigations in Dallas County, Ala., which the department said are aimed at blocking federal law enforcement efforts.

The action was primarily aimed at calling off the grand jury investigation of transportation given Negro integration leader Martin Luther King Jr. at government expense. King was taken from Birmingham to Selma, Ala., for an integration rally Oct. 15.

Selma, Ala., for an integration rally Oct. 15. The department said in a complaint filed in U.S. District Court, Mobile, that the grand jury activities exceed the jury's authority and are part of a larger pattern of intimidating potential Negro voters in Dallas County and Selma, its principal city.

Dallas County officials were advised Monday night in a telegram from Asst. Atty. Gen. Burke Marshall that the federal court action was impending.

It drew an angry response from Sheriff James Clark who termed it "a bald attempt by the Justice Department to prevent the Dallas County grand jury" from making its inquiry. Clark and Gov. George Wallace set off the investigation and a similar one in Montgomery County with charges that King had been given transportation in a car rented by the Justice Department.

The department twice denied the incident before admitting it was true. A Negro attorney involved resigned from the department.

Army Wants Housing for Pine Bluff

WASHINGTON (AP) — The Army is asking Congress for \$500,000 to build 33 units of family housing for personnel of the Pine Bluff Arsenal.

Army officials discussed the need for the housing, to be built on the post, in testimony made public today by a House Appropriations Subcommittee.

Col. J. R. Rorabaugh, of the Army's Family Housing Division, said the arsenal has a gross need for 111 units of family housing. Construction of 33 new units would meet 90 percent of the total need, which is the customary goal, he said at a closed hearing of the subcommittee.

Pine Bluff Arsenal, the Army said, is a chemical manufacturing and storage activity scheduled for indefinite retention as a permanent installation. It manufactures munitions, develops biological warfare agents for further research for development. It stores equipment, munitions and toxics.

Temperature Slated to Dip Tonight

By THE ASSOCIATED PRESS

Sunny skies covered most of Arkansas today, and temperatures were mild, but a drop in temperatures was forecast for the northern section tonight. There was no rain in sight as the state headed back toward severe drought conditions that were lessened in the last two weeks by rain over much of the state.

The forecast called for fair and cool through Wednesday with the high today in the 50s in the north and 60s, south. Lows tonight will be generally below freezing — 28 to 32 — in the north and around 40 in the south.

The state's forests, once in tinderbox condition, were rapidly returning to extreme dryness in the lack of rain. The total rainfall in the state this year is 21.74 inches, which is 20.15 inches below normal.

Highs Monday were generally in the 70s. Overnight lows were in the 30s.

Mother Confused and Bitter Because Daughter's Leg Amputated to Save Her Life

By LARRY FRIEDMAN
Associated Press Staff Writer

CLEVELAND (AP) — Blonde Mrs. Lily Simko was confused, brokenhearted, but most of all she was bitter — at everyone. Three floors up in an operating room, surgeons were amputating the right leg of Christine, her 14-year-old daughter.

Seated in a corridor of Metropolitan General Hospital, Mrs. Simko remained unconcerned to the facts. "What kind of life can my daughter have now?" she asked as sobs broke her voice.

Christine had a life-or-death question hanging over her. She had a malignant tumor in her right hip. Doctors agreed that only removal of the leg — including the hip — could save the girl's life. Otherwise, life expectancy was reduced to 6-18 months.

Now, Christine has a reasonable chance to be cured over a five-year period. Every week and month brings added hope, doctors say.

Four surgeons completed the operation in five hours Monday. All went smoothly. Christine will be out of bed in a few days. She will walk, first with crutches and then under physical therapy treatment with an artificial limb. Since her hip is gone, the limb will be attached from a strap around the waist.

Mrs. Simko never consented to the operation. Doctors said they believe she feared Christine would one day blame her for the loss of the leg.

The girl was a ward of juvenile court. She had run away from home several times and

was a behavior problem. The mother, who is on state aid-dependent relief, does not work. When doctors couldn't get permission from Mrs. Simko, they asked juvenile court last week to allow the operation. Judge Walter G. Whitlatch gave permission for the operation.

Because "everyone kept bugging me about the operation," the frightened Christine ran away from the hospital in her bedroom gown last Tuesday night. She was found across town in her east Cleveland home the next morning.

Christine returned to the hospital, saying she was ready to face her fate. But Mrs. Simko still blamed the court, the doctors, social workers and everyone connected with her daughter's case.

"Oh, why did everyone keep the facts from her and from me?" Mrs. Simko asked. "They said she always ran away and got into trouble. The doctors operated on her leg so she won't be able to run anymore. They'll always know where to find her — she'll always be in a chair. Oh, she'll just fret and fret."

During the past week, mail from well-wishers has poured into the hospital from almost every state and some foreign countries. "I know Christine will feel better when she reads the letters," Mrs. Simko said.

Mrs. Simko is a divorcee. Christine's father disappeared six years ago.

The blonde woman from Leicester, England, married a GI. She came to America and had two children, a son who now is 15 and Christine.

Holiday on Ice Back on Schedule

GRAND RAPIDS, Mich. (AP) — The Holiday on Ice touring company, shaken by disaster in Indianapolis 13 days ago, was back on its blades here today as a crowd-pleasing, professional entertainment unit.

A test-of-mettle performance Monday night went off without a hitch before a near-capacity crowd of 3,200 persons at Civic Auditorium.

It was the first time for the unit to appear in public since Oct. 31, when a gas-triggered explosion ripped the Indianapolis Fairgrounds Coliseum. The explosion killed 71 spectators, the latest victim dying in a hospital Monday, and injured about 300 others.

It took guts, but we made it," a girl skater commented in the wings after the Mardi Gras "pinwheel" finale. She referred to the point at which the Indiana tragedy struck.

Musical conductor Ben Stabler said at intermission that the performers were nervous Monday night.

"This afternoon at rehearsal," he said, "we got to the pinwheel part and we had a few bad moments when we couldn't go on, but we got over it."

For others in the show it was "great to be back to work."

Some Diamonds Are Discovered

NEW YORK (AP) — A cache of diamonds, believed part of the loot from last Friday's \$3-million jewel robbery here, was found Monday night at a Manhattan demolition site.

It was the same site where the robbers had abandoned a hijacked jewelry messenger service car from which police recovered \$2½ million worth of gems and gold bars.

The value of the newest find was not estimated immediately. The demolition site, on West 40th Street, is a block away from where the car, carrying six unarmed guards, was robbed by five gunmen.

Retired General Hodge, 70, Dies

WASHINGTON (AP) — Gen. John R. Hodge, ret., a decorated hero of the Pacific fighting in World War II, died today in Walter Reed Army Hospital. He was 70.

He had been a patient at the hospital since Nov. 6.

Retired since 1953, he had made his home at Fayetteville, N.C.

Hodge was awarded the Air Medal after World War II for a daring solo reconnaissance flight over enemy territory in the Philippine Islands at a time when he was a corps commander.

Lucy, Head of a \$25 Million a Year Business, a Top Star, Is a Very Happy Person

By HAL BOYLE

NEW YORK (AP) — "I look and sound like a little person, but I'm not," said Lucille Ball. "But I'm a happy person now."

There are exterior reasons why she should be happy. The famous redhead is a star in her own right, and as president of the \$25-million-a-year Desilu Productions, Inc., she is sitting atop one of the biggest gold mines in show business.

"But what makes you happy in this business is just being a part of it," she said. "I never have fought over questions of billing or money. My biggest thrill is in being recognized as an accomplished performer."

"Success to me is just a steady, go-to-meeting, workaday continuance. I don't feel any different. There are more people to help, but that's no problem. It's a pleasure."

Miss Ball, looking far more fetching in her pajamas than the general run of corporate heads, abandoned her bowl of luncheon rice pudding and laid aside the script she had been reading. She walked to the window of her hotel living room and glanced out into the rain.

She recalled an incident of her youth, when she was an obscure model here, hoping that somehow, sometime she would be able to land a job as a showgirl.

"I had the usual starving, freezing time here," she said. "I don't look upon that time as the good old days. I was making \$25 to \$50 a week. I was shy as a kid. I didn't have any dates. I never saw the inside of a night club."

"I didn't mind the fact that success came so gradually," she said, turning away from the window.

"I thought I was doing fine. I was happy. I had a wonderful apprenticeship. I would have worked for nothing."

To her chief sins in life are ingratitude and self-pity.

"The thing that held me back for years was being too willing to see the other guy's side before I did my own," she said. "That way you can wind up being a patsy."

"You have to follow your own convictions if you're going to be successful. You have to be strong enough to follow your own path."

Negroes Attack a White Man

ATLANTA (AP) — A 39-year-old white man was seized by several Negro youths who dragged him several blocks and set his clothing afire, police reported.

The victim, William Lanigan, was reported in serious condition at a hospital Monday with third-degree burns over the upper part of his body.

Detectives said Lanigan was unable to give a coherent statement, but related that the youths dragged him to the rear of a residence and set his clothing on fire.

Hubert Johnson said he heard the man screaming outside his house and extinguished the flames with a coat.

Would Hike Assessments on Utilities

LITTLE ROCK (AP) — A special finance advisory committee recommended Monday that the Little Rock City Manager Board assess Southwestern Bell Telephone Co. and Arkansas - Louisiana Gas Co. an additional \$246,000 in franchise taxes.

The money would be used to help finance pay increases for city employees and possible aid in easing capital improvement needs.

The report of the committee did not mention Arkansas Power and Light Co., the third utility to serve the city. AP&L paid \$338,000 in taxes last year, Southwestern Bell \$76,000 and Ark La \$80,000.

There was no immediate comment from officials of the two utilities.

The committee also recommended that the board begin a study to eliminate inequities from the city's privilege tax structure and produce additional revenues. No amount was set.

Educational Proposals Are Offered

By G.K. HODENFIELD
AP Education Writer

CHICAGO (AP) — A major overhaul of college education, extending it from four years to five and postponing specialization until graduate school, was proposed here today by a university president.

Francis H. Horn of the University of Rhode Island said the education of broadly informed citizens can no longer be accomplished in the traditional four years.

Undergraduates should not be required to study some particular field in depth, Horn said, particularly "if such depth is at the expense of exposure to and understanding of some of the humanities, including the fine arts, the social sciences, and the natural sciences."

"The student," Horn added, "should be introduced to as many areas of the arts and sciences as possible. He shouldn't have to miss either chemistry or Shakespeare, art or anthropology."

Horn made his proposals in a speech at the annual meeting of the Association of State Universities and Land-Grant Colleges.

In urging that college be extended from four years to five, Horn struck at one of the most hallowed traditions in higher education. The four-year college program has been handed down over the centuries from the Middle Ages.

"The inflexible academic lockstep must be broken," Horn said. "Some students may make it in four years; others will require six, depending upon the student's ability and application and the extent and quality of his secondary (high school) education."

Horn said he expected his proposal to do away with academic majors to be resisted.

"Pope's aphorism, 'a little knowledge is a dangerous thing,' will be cited," he said. "But Pope was wrong."

"A little knowledge of Shelly, Moliere, or Tolstoy is better than no knowledge at all, so long as that little is accurate. Similarly, a little understanding of Keynesian economics, existentialism, or Soviet foreign policy is better than none at all, again provided that that little is accurate, and that the student possesses reasonable intelligence."

Estes Refuses to Tell Probers About Deals

By G. MILTON KELLY
Associated Press Staff Writer

WASHINGTON (AP) — Texas promoter Billy Sol Estes refused today to answer questions about his dealings with government officials under federal farm programs.

The Senate Investigations subcommittee, after quizzing Estes for an hour behind closed doors, announced he had invoked the Fifth Amendment, pleading that answers to the questions might "tend to incriminate me."

WASHINGTON (AP) — After more than a year in mothballs, a Senate investigation of Billie Sol Estes resumes today with the Texas promoter on the witness stand.

For months he was headline news as stories of his dealings under government farm programs, his huge discount sales of liquid fertilizer and clothing gifts to officials were unraveled.

The Senate Investigations subcommittee now helps to learn from Estes whether political influence helped him amass a multimillion-dollar fortune at the age of 35.

His financial empire in early 1962 collapsed in bankruptcy, law suits and allegations of scandal. He has been convicted of state and federal fraud charges from which he is appealing.

Chairman John L. McClellan, D-Ark., told a reporter Monday he understands that "even Estes' own lawyers don't know" whether the Pecos, Tex., wheeler and dealer will testify or invoke his constitutional right to decline to testify.

Developments would determine whether there would be a brief closed door session in advance of the scheduled public hearing.

Ohio Bishop to Plan Meeting

LITTLE ROCK (AP) — The Rt. Rev. Nelson Burroughs, Bishop of Ohio and presiding Bishop of the Episcopal House of Bishops, was to arrive here today to complete plans for the House of Bishops meeting which begins Tuesday.

One hundred and forty bishops from all over the U.S. and several foreign nations will attend the meeting, at which such topics as church unity and the role of the church will be discussed. A missionary bishop will be elected.

One of four Negro bishops who will attend the convention, Bishop Cedric E. Mills of the Virgin Islands, delivered the Sunday morning sermon at Trinity Episcopal Cathedral, where the House of Bishops will meet through Friday.

Most of the meetings are closed.

Grazing Only by ASCS Permission

The Hempstead ASCS County Office has been notified that Hempstead County has been approved for grazing or haying.

Soil Bank and Feed Grain Diverted Acreage because of the drought. Quoted below is a notice that will be mailed to each producer in the county regarding this program.

"The Secretary of Agriculture has authorized grazing and haying for a limited period of time of land designated under the soil bank, wheat stabilization and feed grain diverted acres programs subject to approval by the county ASC committee."

Regardless of news reports you may have read or heard, such use of this acreage, without prior approval of the ASC county committee, is a violation of program regulation for which specific penalties, forfeitures and refunds apply.

"If you believe permission should be granted for you or some other person to graze or harvest hay on this land on your farm to alleviate a hardship caused by the unfavorable weather conditions in this area, please notify the county ASCS office immediately so that necessary steps for reaching a decision can be started. A deduction for the value of the grazing or haying will be made from your program payments if this permission is granted."

DOPE PEDDLER SEARCHED — Narcotics inspectors of the State Food and Drug Division in Boston, Mass., hold Paul Litman at gunpoint as he is searched for drugs. The officers, who posed as underworld characters, said they purchased \$370 worth of marijuana from Litman who led them to a spot in Boston's Dorchester section where the sale was carried out.

Ray Yocom Fire Chief Succumbs

Louis Ray Yocom, aged 46, a lifelong resident of Hempstead, died Monday in a local hospital.

He had been chief of the Hope Fire Department since 1944.

103rd Birthday

LITTLE ROCK (AP) — Percy Johnson, born in slavery at Montgomery, Ala., celebrated a birthday this weekend. He was 103. Johnson came to Arkansas about 1923 and made his living farming. He lives in a two-room concrete block house near the Little Rock Industrial District now and though a grandson says Johnson can still take care of himself, he adds the aged Negro, "doesn't have truck patches like he used to."

Trimble Asks Housing for Ft. Chaffee

WASHINGTON (AP) — Rep. J. W. Trimble, D-Ark., has asked a House Appropriations Subcommittee to approve funds for 500 units of military housing at Ft. Chaffee, Ark.

In a statement to the subcommittee, he urged approval of sufficient money for at least 500 units of onpost housing or, if that is not possible, funds for 500 units of offpost housing.

There was no budget recommendation for funds for such housing at Ft. Chaffee.

Trimble said Fort Smith, which is adjacent to the Army post, has had considerable industrial expansion in recent years, together with a population growth. The result he said, has been a reduction in available housing units and a real need for onpost housing at Chaffee. He said Chaffee's complement is about 15,000 men and officers.

Trimble's statement was disclosed today by the subcommittee.

Russia Arrests Yale Professor as U.S. Spy

By PRESTON GROVER
Associated Press Staff Writer

MOSCOW (AP) — The Russians announced today the arrest of Prof. Fred C. Barghoorn of Yale University on a charge of spying—the first such case involving an American since the recent cold war thaw.

The U.S. Embassy got the news from the Foreign Office, which refused to give any information on where he is being held. The embassy was pressing for details of the charge against him.

The author of several books on the Soviet Union, the 52-year-old professor formerly was on the staff of the U.S. Embassy in Moscow. He arrived in the Soviet Union about Oct. 1 on a month's tourist visa. The Foreign Ministry said he was arrested several days ago.

Barghoorn went to Alma Ata, capital of the Central Asian republic of Kazakhstan at the time of an exhibition of American graphic arts there early in October.

An embassy official said he last saw Barghoorn Oct. 12 at Tbilisi (Tiflis), capital of the Georgian republic. That is the last time he was reported seen by any Westerner.

If the charge follows the usual pattern in cases of foreign tourists accused of espionage, a camera might have gotten Barghoorn in trouble. The usual charge is photographing military installations, and in the Soviet Union that can mean almost anything, such as a bridge.

Barghoorn is a resident of New Haven, Conn. He is a brother of Prof. Elso Stenberger Barghoorn, a Harvard biologist.

He is a professor in the Political Science Department at Yale.

He was on the staff of the American Embassy in Moscow from 1942 to 1947, with the State

SCHOOLS MUST HELP 26 MILLION YOUNGSTERS WORK THEIR WAY THROUGH THE CHALLENGING DECADE AHEAD

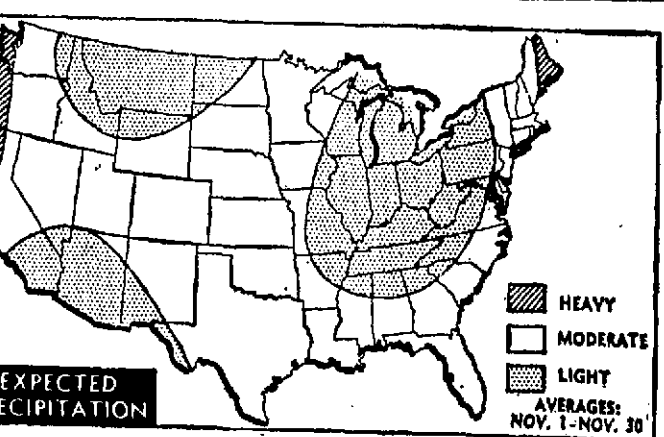

DECADE OF DECISION—Twenty-six million young people will complete some or all of the 16 years normally required for an education through the college level during the decade of the '60s. These 26 million will enter the job market to join 58 million Americans who will be already employed. • Fall 1963 enrollment in public and private schools and colleges totals an all-time high of 51.5 million students, an increase for

UN Trying to Avert Arms Break

UNITED NATIONS, N.Y. (AP)—A go-between mission of smaller nations sought today to avert a U.S.-Soviet break over a Russian proposal for changes in the disarmament resolution before the U.N. General Assembly.

The eight-nation team was scheduled to brief U.S. delegates today on the results of a 90-minute huddle Monday with Soviet Ambassador K. V. Novikov.

Nigerian Ambassador S. O. Adebayo, head of the group named by the 46 nations sponsoring the general disarmament resolution, said he hoped to find out whether there was any chance of the two big powers getting together.

The 46 sponsors had hoped for unanimous approval of their proposal calling on the Geneva Disarmament Committee to step up efforts toward agreement in limited areas as well as on complete and general disarmament.

The sponsors had expected to reach a vote last week after the United States and Britain signified approval. But the Russians circulated a working paper among delegations Friday suggesting (1) elimination of any call for specific measures such as guarding against surprise at-

hearing to permit Estes and the senators to sound each other out at this, their first meeting, McClellan said.

The hearings have been dormant since Sept. 22, 1962, when McClellan recessed the hearings to avoid prejudicing Estes' trial in Texas on fraud charges, of which he was found guilty.

The charges dealt with the alleged juggling of mortgages on non-existent fertilizer storage tanks, a subject the subcommittee avoided in its hearings.

It dwelt, instead, on allegations that influence had helped the once politically potent Estes to reap large profits from federal farm aid programs.

The Senate Investigations subcommittee now helps to learn from Estes whether political influence helped him amass

New Regime in Viet Nam Has Troubles

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP)—The generals in South Viet Nam solved one set of problems when they threw out President Ngo Dinh Diem and his troublesome brother, Ngo Dinh Nhu, both of whom were killed. But there are others.

The brother, after nine years in power, never solved them. Now it's the turn of the generals who are running the country. Will they be able to:

Steer it in a democratic direction? Diem didn't. His was a dictatorship. Wage successful war against the Communists? Diem didn't. Avoid conflicts, intrigues, jealousies, explosions? Diem didn't.

Will the generals, through reforms and programs of benefit, be able to give the masses of Viet Nam a reason for caring who wins? Diem didn't. The mass of the 17 million Vietnamese live in enormous and primitive poverty.

Buddhists make up 70 per cent of the population, Roman Catholics 10 per cent. Catholic Diem repressed the Buddhists. Will the Buddhists try to retaliate against Catholics now for what Diem did? It's a haunting possibility.

Diem began his repressions in May when his government troops, firing on a Buddhist demonstration in Hue, killed nine people. The Buddhists had been complaining that Diem was discriminating against them.

This could not be blamed on the Catholic Church. In the tortured and gory months that followed the May shootings, Pope Paul VI expressed "apprehension and anguish" over the situation.

But the shootings brought the Buddhists' complaints to a head. They demanded improved social and economic status.

And then, as if he had listened to a voice coming to him over more than 400 years, a 73-year-old Buddhist priest, Quang Duc, drenched in gasoline, lit a match and burned himself to death in protest against Diem's policies.

In England 400 years ago, Catholic Queen Mary set out to repress the Protestants. One of their leaders, Bishop Hugh Latimer, was condemned to death by burning at the stake.

As he walked to his death at Oxford in 1555 he said "we shall this day light such a candle, by God's grace, as shall never be put out." It wasn't. When the Protestants regained power, they persecuted the Catholics.

The burning monk in Viet Nam shocked the world, pointed up for all to see as perhaps nothing else could the dilemma of the Buddhists, and encouraged other Buddhists to sacrifice themselves, too.

Seven of them made candles of themselves before the generals devastated Diem and his brother Nov. 1.

The Vietnamese people never have known democracy. They moved from French colonialism into Diem's dictatorship. Since they never had a chance to practice it, it can't mean to them what it does to those who grew up under it.

It can be no surprise then if the generals ignore the democratic road and operate as a dictatorship. If so, there can be no surprise if the country sinks into chaos under the weight of new repressions and power struggles.

Two Awarded for Acts of Bravery

PITTSBURGH, Pa. (AP)—Two persons were given Carnegie Hero Fund Commission awards Monday for acts of bravery in Arkansas.

Clodius McCullen of Conway received a silver medal and \$750. David C. Daniels of Marion, La., received a bronze medal and \$500.

McCullen, 24, a construction laborer, was injured in trying to push Mrs. Neeley P. Harrison, 86, from the path of a train at Humphrey on Aug. 27, 1962. Mrs. Harrison was killed.

Daniels, 52, a heavy equipment operator, pulled Fred H. Maroney, 52, a construction foreman free of an electric wire at Huttig, Ark., on Jan. 24, 1963. Maroney died in the construction accident. Daniels suffered electric shock but no burns.

The Carnegie Hero Fund Commission annually gives awards for acts of bravery to hundreds of persons.

erals looked like a fresh start. This explains why the Kennedy administration, within seven days of the coup, recognized Viet Nam's provisional military government and why it hesitates so much in recognizing Latin American military coups which crush democratic regimes.

But victory in the field against the Communists is not final victory. The Communists in North Viet Nam will try other methods, promising always a better life to the masses of Viet Nam.

The new government in Viet Nam, even if it wins the fighting war, will have to find an answer to offset the Communist promises. The answer lies in programs of benefit to give the masses a reason for not choosing communism.

Wreck Victim Still Critical

NEVADA, Mo. (AP)—Mrs. Mae Muncy, 56, of Gentry, Ark., remained in serious condition in a Nevada hospital today following an accident that took the life of her husband David, 67.

The accident occurred on rain-slick U.S. Highway 71, 13 miles north of Nevada Monday.

An attending physician said Mrs. Muncy had multiple fractures and lacerations and was in a state of shock late Monday night. Today he termed her condition satisfactory.

Four other persons were killed in the accident: Christopher Columbus Tuttle, 86, of Cabool, driver of the second car; his wife Effie, 83; his sister-in-law Grace Tuttle, 86, of Sheridan, Ore. and Emma Musgrove, 81, of Cabool.

12,800 Served at One Place

CHICAGO (AP)—More than 12,800 Masons and their families ate breakfast in McCormick Place Sunday in what was described by officials as the biggest breakfast ever served under one roof.

Thirty dishwashers are expected to complete the cleanup job at the lakefront exposition center by Wednesday. More than 100 chefs took five days to prepare the second annual re-dedication breakfast of the Ancient, Free and Accepted Masons of Illinois.

Justice Tom Clark of the U.S. Supreme Court was the principal speaker.

Department in Germany from 1949 to 1951, and has been a lecturer at several universities.

The arrest of Barghoorn was the first Soviet spy charge involving an American since the signing last July of the limited treaty on banning nuclear tests.

The signing was followed by an easing of international tensions—and the release of two Americans imprisoned in the Soviet Union.

MOSCOW (AP)—The Soviet Foreign Office informed the U.S. Embassy today that Prof. Fred C. Barghoorn of Yale University has been arrested as a spy.

Barghoorn, 52, is an expert on Soviet affairs and was on the staff of the U.S. Embassy in Moscow from 1942 to 1947. Since then he has been a member of the political science faculty at Yale.

The embassy said the Foreign Office declined to indicate where Barghoorn had been arrested. Embassy officials were not allowed to see him. He was said by the Foreign Ministry to have been arrested several days ago.

He came to the Soviet Union around Oct. 1 on a month's tourist visa.

Barghoorn, of New Haven, Conn., is the author of a book called "The Soviet Cultural Offensive."

He had been here before and was believed once to have been a member of a joint service which read Soviet magazines and newspapers for the benefit of Western embassies and the Western press.

The embassy spokesman said authorities had been unable to get any additional information about the arrest, or on what grounds the spy charge was based.

Business Too Good, Bank Closes

TULSA, Okla. (AP)—A new national bank whose business was deemed too good for its own good remained closed—but solvent—today while a federal conservator worked to get it back in business.

William H. Greenfield of Dallas, named conservator for the Southern Hills National Bank, told a news conference Monday that he had decided to defer reopening of the bank for a few days "for further training of necessary personnel."

Greenfield said his decision was approved by the comptroller of the currency, James H. Saxon, who suspended business of the bank and appointed Greenfield Friday, saying he acted because the press of deposit accounts had overtaxed the processing facilities of the bank.

"There is no question of the solvency of the bank," Greenfield said. But he noted that the rush of depositors since the bank opened Aug. 5 had strained the bank's personnel and equipment.

Southern Hills offered initial depositors checking accounts with no service charge for life. It got 12,000 takers in eight days and now has 25,000 to 30,000 depositors.

Fonda Show on News Was Very Funny

By CYNTHIA LOWRY

AP Television-Radio Writer NEW YORK (AP)—Henry Fonda, host of Sunday night's NBC special, "That Was The Week That Was," explained that the hour was designed to help the audience "keep your thumb on the nose of the news."

And for 60 minutes a group of talented performers poked fun at just about every topical target in sight, from Charles de Gaulle to debutante parties. Some of the sharpest satirical thrusts were directed at American politics.

A lot of it was very funny, some of it seemed in poor taste, but all of it was intelligent, impudent and irreverent. Usually, what television calls satire is a "spoof" of a TV commercial or an imitation of John F. Kennedy or James Cagney. This was the real thing, and it had bite. There was a lethal sketch about Barry Goldwater and his conservative thoughts, a snide swipe at Nelson A. Rockefeller and even a blackout which went way out and included Thomas E. Dewey.

Perhaps the funniest sketch was done by the marvelous Mike Nichols and Elaine May. Miss May played a "grief lady" selling the services of her establishment to tearful customer Nichols, interested in an inexpensive funeral.

Some shafts went wide of the mark and some should never have been thrown. The show opened with a tasteless integration joke. There was a bit about

DOROTHY DIX

HIDES FROM LIGHTNING IN A BOTTLE

By Helen Worden Erskine

Dear Helen: I live in abnormal dread of electrical storms. Have you any words of comfort for me? Fear of the elements causes me to become a temporary alcoholic. These thunder storms seem to be gaining strength annually but even though my physician prescribed a tranquilizer, it is not strong enough to throttle that overpowering fear.

To change the subject: It is pleasing to note the sincerity in your reply to "Grandma" who wanted to write. You had the benevolence not to destroy her desire for achievement, yet warned her of the odds. Most professionals would dismiss her with a "Don't try," or go to the other extreme and encourage overconfidence even to those definitely unqualified.

I wrote a column in our community weekly and do miss the race to beat a deadline. It was always a rewarding challenge, especially when I meet former readers who still comment on what I had to say. —Faithful Reader

Dear Reader: Isn't there some one corner in your house where you feel safer from lightning than in others? Find yourself such a spot, substitute your typewriter for the whiskey bottle and get busy writing. So fill your mind with work that there will be no room left for fear.

Actually, your chances of being harmed by the storm in your corner are practically nonexistent.

Send a stamped, self-addressed envelope for my leaflet, "Alcoholism."

Dear Helen: I am a widow of 58 and find the only work I can get here at home is the free kind. Is there no place for those my age who need work, are young at heart and not ready to be shelved? —A.E.H.

Dear A.E.H.: Have you thought of a corrupt mayor which was not funny. Neither was an "interview" with a TV-wise clergyman who used Madison Avenue jargon.

The program strided roughshod into delicate areas, named a m.e.s. pulled no punches. There will be complaints. But if the preview is well received, we may have such a weekly show next season. It would certainly add some salt and pepper to a rather bland television diet.

oughly evaluated your skills and interests, made up a comprehensive resume of your background and exhausted the job possibilities in your locality. The more specific you are about what you want to do, the more likely you will convince an employer you are what he is looking for.

Take an adult education course, if necessary, to qualify for what you seem best suited. Good luck!

Dear Helen: Our blonde, blue-eyed 16-year-old daughter is going steady with a dark, curly-haired senior. They plan to marry before Christmas. He has a steady job, makes good grades at school and is as nice a boy as you could find.

His mother is a fair-haired French woman, his father short, tanned and bald. Both are friendly, likeable people. I asked the father his nationality and he said, "Italian."

But, because of neighborhood gossip, I'm still wondering.

Is there any way we could find out the true nationality of this family? My daughter says regardless of the boy's antecedents, she loves him and they intend to marry. Should we encourage or discourage her? —Would Like To Know

Dear Would: If your daughter is going to be married before Christmas I'm surprised that you are wondering about such things as the boy's background at this late date. Certainly his surname should give you a clue as to his nationality, if you do not believe his father.

The fact that you like his parents and can say such good things about him makes me think you are borrowing trouble by listening to gossip.

You ask would I encourage or discourage your daughter. If you mean about marrying as nice a boy as could be found, the answer is that I would certainly encourage her. If you mean about marrying a boy who is still in school, good grades or not, encourage her to wait until he is out of school and earning enough to support them both.

Have you a problem? Perhaps Helen Worden Erskine can help you. Write her in care of this newspaper, enclosing a stamped, self-addressed envelope.

Students to Launch Satellite

BERKELEY, Calif. (AP)—In this day of billion dollar space budgets, two junior college students with begged and borrowed rockets and instruments say they are on the verge of becoming the first private individuals to launch an earth satellite.

They had a dress rehearsal of their balloon-lifted scheme in the Nevada desert Sunday and the two backyard scientists reported everything A-O-K.

Their 4-stage, 31-inch solid fuel rocket roared off a 35-foot helium balloon at 90,000 feet and sent a tiny nose cone up to about 70 miles altitude.

"It flew for 4 1/2 minutes—we know that for sure," Dave Guidici, 21, an engineering student at Oakland City College told The Associated Press.

"Everything went perfectly," he added. "The transmitter aboard the cone worked fine. We tracked for 10 seconds after blastoff. We lost it, but picked it up again as it re-entered. Through physics we know exactly its flight curve, even though it burned up. We could even hear it re-enter the atmosphere."

"You can say," Guidici declared, "We did yesterday in miniature what we're going to do in six months when we launch our satellite. The only difference will be everything will be bigger and we'll launch at the horizon and not straight up."

Dave's partner in this East San Francisco Bay area venture into do-it-yourself rocketry is Kelly MacDonald, a student at Contra Costa Junior College who decided recently—for some strange reason—to drop engineering in favor of pre-medicine. Kelly is 20 and both boys live in El Cerrito, next door to Berkeley.

"To be fair," Kelly said, "we've had great support from NASA, from the University of California and from the Navy. The Navy is furnishing us parts for the 102-inch rocket for our satellite launch and we will fire over the Navy's South Pacific test range."

The satellite will be a 4.2 pound nose cone carrying three pounds of instruments provided by the University of Berkeley.

Montreal Player in Scoring Lead

MONTREAL (AP)—Montreal's Jean Beliveau maintained his National Hockey League scoring lead last week, but Chicago's Bobby Hull made the biggest gain and vaulted into a tie for the runner-up spot.

Beliveau accounted for one goal and two assists last week and now has six goals and a league-leading 17 assists for 23 points, according to league statistics released today.

Hull, meanwhile, picked up five points for a total of 18 and tied teammate Stan Mikita for second place. New York's Phil Goyette is fourth with 15 points. Mikita fired three goals last week, taking over the No. 1 spot in that department with nine.

Detroit's Gordie Howe, the defending scoring champion, is in a tie for 12th place with nine points. Howe ran into a slump while trying to score an NHL record 54th goal. He did it Sunday and now has five goals and four assists for the season.

Scoffs at Trading Baylor, West

MINEAPOLIS (AP)—Los Angeles Lakers owner Bob Short labeled as ridiculous rumors that his club's star players, Elgin Baylor and Jerry West, were possible trade bait with the Baltimore Bullets of the National Basketball Association.

"The only way you can answer such a ridiculous rumor is with an equally ridiculous reply," Short said when contacted Monday night at the Lakers-Detroit Pistons game here.

"Everybody knows that Baylor and West are not for sale or trade regardless of the offer," he added. "I'm sure the management of the Baltimore ball club knows that."

He acknowledged that he had heard rumors of the trades. One proposed Baylor going to the Bullets even up West Bellamy. The other had West, Jim Krebs and Frank Selvy being swapped for Bellamy.

Do you suppose there ever was a woman who felt that she had the right things to wear at the right time... especially if she were away from home? In all the years we have been in this business of buying and selling, we have rarely met one who would admit it. And this includes buyers, who are supposed to have access to any and all types of clothes.

This little buyer has been spending some time at market; we have been placing advanced orders for Spring, picking up merchandise for the holidays and shopping in general for Raley's Style Shoppe. Women concerned with fashion from all parts of the country were there, and you heard the same cry from each and every one... "I didn't bring this or that, and I certainly could have used it."

We were as unprepared as anyone else except for our wool knits, we wore one and took two and they saw us through! There is one blessed thing about knits... they don't wrinkle; they can be dressed up or down, they make you feel slim and whether it is hot or cold, they seem to adapt themselves.

We saw Bianca knits displayed in the city stores, just like the ones we have at Raley's Style Shoppe. We saw the three-piece cherry fuzz with the print over blouses; the smart black corded knit suit-type with the hip-belt, the very new grey and white suit with the white pull-over inside blouse, the cranberry red with the cowl collar and slim skirt...

We saw the Jonathan Logan pastel knits, the basic one-piece so smart to wear with your stole, the three-piece suit in pastel shades. You, too, will be surprised at the price... only \$39.95.

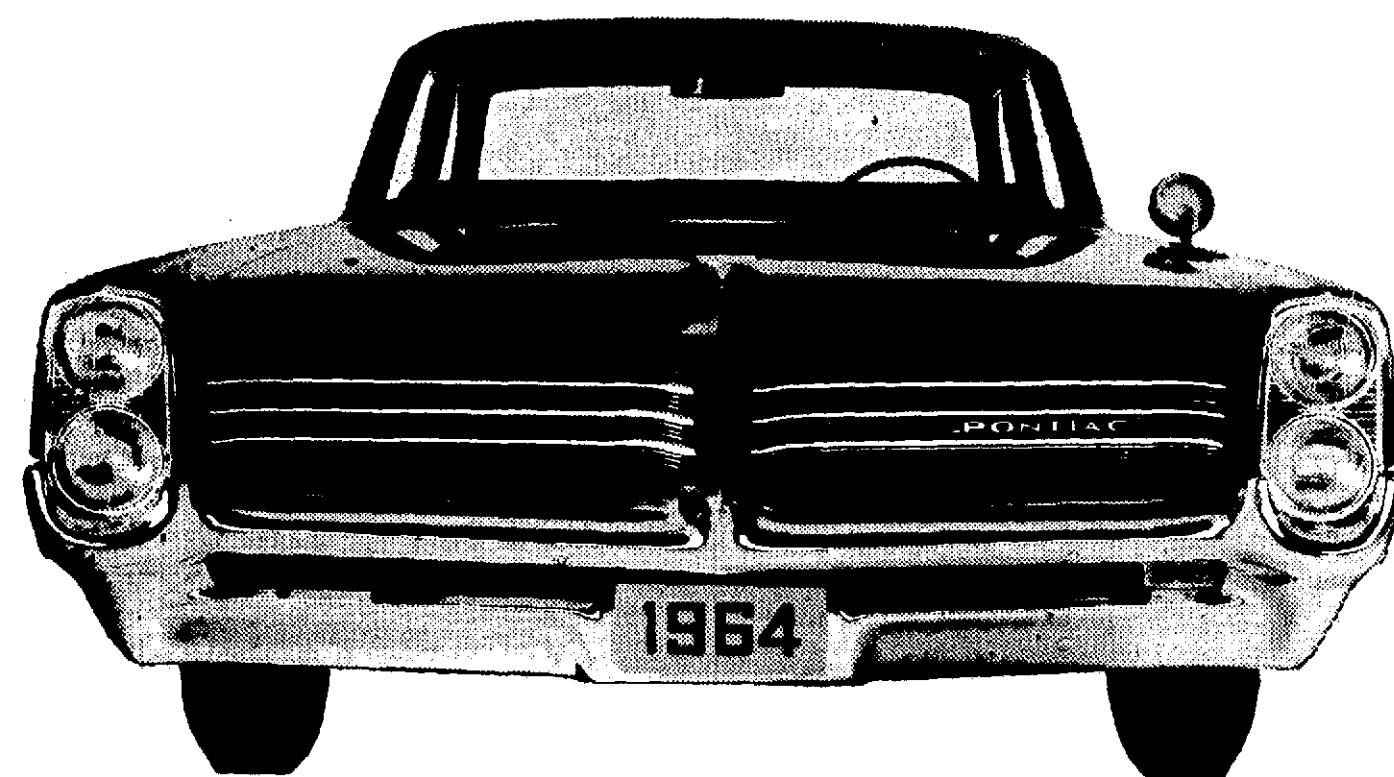

We saw others, and we would like to show them to you; shop today at Raley's Style Shoppe 523 West 3rd St.

Terrorists Killed 3 in Red Rescue

CARACAS, Venezuela (AP)—Pro-Communist terrorists invaded a provincial hospital today, killed three persons in a blazing gun battle and took out a wounded captured Communist leader.

The dead were a physician and two policemen. Another policeman was critically wounded in the attack on a hospital in Barquisimeto, 165 miles west of Caracas.

Police identified the gunmen as members of the Armed Forces for National Liberation. After opening their surprise machine-gun barrage, the terrorists fled by car with Communist state deputy Jose Varraez, who was wounded and captured by police three days ago in the government's crackdown on leftist activities.

Varraez was among the Communist party leaders ordered arrested by President Romulo Betancourt Sept. 30 on charges of rebellion.

In Caracas, FALN gangs invaded five movie houses and at gunpoint forced the projectionists to show FALN and Communist propaganda films. There were no casualties. The raiders escaped.

Holds Private Mass for Late Husband

LOS ANGELES (AP) — Mrs. Ngo Dinh Nhu, former First Lady of South Viet Nam, attended private Mass for her late husband and brother-in-law, indicating she accepts reports of their deaths.

Mrs. Nhu and her daughter, Le Thuy, 18, went to the Church of the Good Shepherd in Beverly Hills Sunday for the private services. They were accompanied by Mr. and Mrs. Allen Chase, in whose Bel Air home she is staying.

Rt. Rev. Msgr. Daniel F. Sullivan, pastor at the church said Mass was said in memory of her husband, Ngo Dinh Nhu, and brother-in-law South Viet Nam's former President Ngo Dinh Diem. They died in the coup that overthrew their government.

Ann Kenyon: Surgeon

THE STORY: A number of considerations are likely to affect Ann Kenyon's decision whether she will remain in Leddie, a small town, and become one of the staff of a small hospital, or return to New York and serve in a large hospital.

build a house here, where we're standing, one of those rambling places that lets you keep all the trees. You know. Board and batten and native stone—

"And a window wall." Ann dreamed too. "You've got to have a window wall, Peter."

Dusk was sifting blue-purple through the trees overhead when they went back to the car, Peter's house built and Ann approving even if Helen Leddie might not. Miss Leddie almost certainly would not. Who but Ann Kenyon would want a window wall and a great fieldstone fireplace dominating the living room?

The hospital was wrapped in that false quiet that is the lull before the deluge of visitors that a pleasant spring evening brings forth. Patients had had their mealtime medications and were settling down—or were exciting themselves with the anticipation of company. Nurses who had come on duty at three already had familiarized themselves with the patients' charts, had made their first rounds and were dreading the influx of visitors.

If she were back in Rocky Head she might be dictating her day's findings—diagnosis, notes, opinions—for one of the secretaries to transcribe.

That was another thing she would miss if she stayed at Leddie Memorial, she was thinking when the receptionist saw them. "Dr. McDonnell!"

Urgency tinged the girl's voice. "I've been calling all over for you! Will you get to o.b. at once?"

Rep. Harris to Get Citation

KANSAS CITY (AP) — Rep. Oren Harris, D-Ark., will receive the American Public Health Association's presidential citation for exceptional service to public health at the association's 91st annual meeting in Kansas City Tuesday.

Dr. J. W. R. Norton, North Carolina state health director and president of the association, said Harris will be honored for the major health and medical laws which have been enacted under his guidance during the seven years he has served as chairman of the Committee on Interstate and Foreign Commerce.

Among these, Norton said, have been the Health Professions Educational Assistance Act; an act providing for community health services and facilities, and the law which, for the first time, authorized federal support in providing health services to domestic migrant agricultural workers and their families.

Fisherman Drowns

CROSSETT, Ark. (AP) — Brunie S. McCaskill, 68, of Crossett, was taken dead from Lake Enterprise in Ashley County Monday after falling out of his boat. His wife, Ethel, fishing with him, said it was not known if McCaskill died of an attack or drowning. She said she managed to climb on top the overturned boat and paddle to shore after her husband fell.

BANGKOK Thailand (AP) — The Colombo, Plan nations opened a ministerial conference on technical and economic co-operation today that may be dominated by the political dispute over Malaysia.

In their opening speeches, however, representatives of the four nations chiefly involved in the dispute — Indonesia, Malaysia, the Philippines and Britain — made no reference to it.

Behind-the-scenes efforts to get the Philippine and Malaysian delegates together in an attempt to end the diplomatic rift between the two countries awaited the arrival of Philippine Foreign Secretary Salvador P. Lopez Tuesday night.

The Philippines wants a reconciliation with Malaysia but first wants assurances that its claim to the Malaysian state of North Borneo will be considered and a procedure agreed upon for settlement of that claim.

Malaysia says the Philippines must first recognize Malaysia before any talks can take place.

GENEVA (AP) — A neutral five-man panel today began a search for a compromise proposal to end the 17-month chicken war between the United States and the European Common Market.

The panel from the General Agreement on Tariffs and Trade (GAT) is trying to determine the amount of damage being done to U.S. export trade in frozen chicken by the Common Market's recent sharp increase in duty.

It also will recommend relief measures — possibly a decrease in the European tariff and an increase in U.S. tariffs on other goods — to compensate for the loss on chickens.

VIENTIANE, Laos. (AP) — A French housewife and a Laotian maid died today, bring to four the death toll in the crash of a Laotian air force fighter-bomber.

The Laotian pilot and another French housewife were killed Sunday when the American-made fighter-bomber failed to pull out of a low-flying stunt, crashed and exploded in residential quarters of the French military mission. A third French woman was slightly injured.

Trull, Elkins Leading in Statistics

DALLAS (AP) — Don Trull and Larry Elkins, Baylor's aerial punch, have reached that point in their football careers where anything they do becomes a new record.

Trull already has tied the season record for pass completions with 125. He has set a career completion record with 276 and a new Southwest Conference yardage record of 3,698. And he has three games to go to put those marks out of sight.

Elkins already has caught 56 passes, 12 of them coming Saturday against Texas when he set a new one-game record. The 56 wiped out the conference record of 48 set by Jim Benton of Arkansas in 1937.

Since Elkins, like Trull, has three more games to go, he seems to be in good position to crack the national record of 69 catches set by Vern Burke of Oregon State last year.

Averaging 106 yards per game, Elkins is ahead of Burke's pace in yardage. Burke got 1,007 yards. Elkins will make 1,060 if he maintains his pace.

Elkins is a junior, thus has another year to make more records every time he catches the ball. And he has still a new one to set this year—if he catches seven more he will better the conference career record of 86 in three seasons by Ben Proctor of Texas in 1948-50.

Both Trull and Elkins are so far ahead in passing and pass receiving this season that there's no chance of anybody catching them. Trull, for instance, has completed 125 of 224 for 1,612 yards and the nearest man to him in passing is Danny Thomas of Southern Methodist, who has 52 connections for 692 yards.

Trull has 1,674 yards in total offense and Thomas, in second place, has only 787.

Elkins' 56 catches are exactly 30 more than the second place man in pass-receiving—David Parks of Texas Tech, who has 26.

Tommy Ford of Texas continues to lead the rushers and makes his margin greater every game. Ford has run 579 yards on 125 carries. Donny Anderson of Texas Tech is next with 471 yards on 109 tries.

Thomas leads easily in punting with an average of 45.2 on 38 kicks. Jim Keller of Texas A&M is next with 41.8.

Ken Hatfield of Arkansas leads in punt returns with 254 yards on 17. Jack Brasuell of Arkansas tops in kickoff returns with 330 yards on nine runs.

Palmer Leading Money Winner

DUNEDIN, Fla. (AP)—America's top ten professional golfers have won \$617,609 so far this year, led by Arnold Palmer with \$123,230, according to a report from the Professional Golfers' Association.

Jack Nicklaus was second in winnings with \$98,990, followed by Julius Boros with \$77,356 and Tony Lema with \$67,112.

Texas Remains Nation's Best, Navy Is Next

By HUGH FULLERTON JR.
Associated Press Sports Writer

NEW YORK (AP) — As the only major college team still unbeaten and untied, despite the slender margins of victory, Texas retained its spot as the nation's No. 1 football team this week.

The Longhorns were first on 48 of 53 ballots and took the top spot for the fifth straight week by a comfortable margin.

The panel of sports writers and broadcasters voting in the weekly Associated Press poll also meted out recognition as due to other winners and losers. Navy, Michigan State, Oklahoma and Pitt rose in the rankings while Illinois, Auburn and Ohio State went down.

Texas, winning its eighth straight game, had to go all out to win a squeaker from Baylor 7-0. That was the fourth in a row won by no more than a touchdown. Instead of discounting the Longhorns because of those margins, the experts gave them a whopping total of 528 points on the scoring basis of 10 points for a first place vote, nine for second, etc. That came on 48 firsts, four seconds and one vote for fifth.

Navy moved up from fourth to second with 446 points, replacing Illinois, which skidded far down the list after a 14-8 loss to Michigan. The voters obviously were impressed by the ease with which the Midshipmen massacred Maryland 42-7. Mississippi, an easy 41-0 winner over Tampa, a minor opponent, remained in third. Michigan State climbed from ninth to fourth after trimming Purdue 23-0 and taking the Big Ten lead.

Behind them in the Top Ten came Oklahoma, Pitt, Alabama, Illinois, Auburn and Nebraska. Oklahoma, a 24-14 winner over Iowa State, just nosed out Pitt for fifth in the point scoring, 284-281. Pitt's decisive 27-7 victory over Notre Dame lifted the Panthers from eighth place. Alabama, idle last Saturday, remained in seventh.

Auburn dropped from fifth to ninth after being edged by Mississippi State 13-10. Nebraska, holding its Big Eight lead with a 23-9 decision over Kansas, replaced Ohio State, a 10-7 loser to Penn State, as the ninth team.

The top ten teams with first place votes in parentheses and points on a 109-8-7-6-5-4-3-2-1 basis:

	Pts.
1. Texas (48)	528
2. Navy (4)	446
3. Mississippi	381
4. Michigan State (1)	303
5. Oklahoma	284
6. Pittsburgh	281
7. Alabama	253
8. Illinois	133
9. Auburn	91
10. Nebraska	84

New Mexico Woman Leads Golf Tourney

SAN ANTONIO, Tex. (AP) — The women's golf tour rolled on to Gulfport, Miss., today with Kathy Whitworth of Jal. N.M., holding the San Antonio Civitan Open Championship — her seventh tournament victory of the year.

She ran her 1963 bankroll to \$24,533 Monday as she took down first money of \$1,300 by capturing a sudden death playoff from the acknowledged queen of the links—Mickey Wright.

Misses Whitworth and Wright tied at 72 holes with 299.

Thirty-eight shapely coeds spend an hour a day, five days a week, running the dashes, broad jumping, high jumping, putting the shot, throwing the discus, as part of their academic work.

It's an experimental class in physical education under the smiling direction of Auburn's newly appointed varsity track coach, Mel Rosen.

It all started several months ago when more than two score girl students suggested track classes as something new in the physical fitness kick. When the fall quarter started in September, it was added to the curriculum—purely on a voluntary basis.

Only four of the 38 girls who volunteered for the initial experiment are physical education majors. And only one, freshman Marilyn Jo Smelko of Crystal Springs, Miss., has had previous experience.

"She ran track in high school," says Rosen, "and she's one of our best performers."

To prove that, the demure Marilyn, who wouldn't weigh over about 110 pounds with a full meal, got off a practice broad jump of 15 feet 9 inches. She's an art major.

Surprisingly, the coach says the coeds are easier to teach in some events than the men are.

RUN TO DAYLIGHT—Dick Leftridge, West Virginia fullback, charges through the center of the George Washington line in Washington for a 15-yard gain. On his knees after throwing a block is a Mountaineer halfback, No. 22. Making the stop for the Colonials are wingback Harry Haught, left, and end George Ferguson.

UNSOCIAL CLIMBER—Cosmos Iacavazzi of Princeton climbs over a pileup for a two-yard gain against Rutgers at Palmer Stadium.

Washington Player Is Back of Week

By WILL GRIMSLEY
Associated Press Sports Writer

NEW YORK (AP) — It's one thing to drive a football team across the field into scoring territory and another to push the ball across for the touchdown.

Sometimes it is possible to become so enmeshed in the value of statistics that more attention is given to the touchdown makers than the men who make the touchdowns possible.

Such is not the case today in The Associated Press' Back of the Week—Bill Douglas, the 5-foot-11, 175-pound quarterback at the University of Washington.

Douglas made only one touchdown — a mere pittance when measured by the production of some of the country's other backs — but he had a hand and a foot in a half-dozen in the Huskies' 39-26 victory over California.

The 20-year-old junior signal-caller was the whip in scoring drives that covered 85, 77, 79, 90 and 48 yards and he also helped put the ball in position for a 32-yard field goal.

He completed 12 of 19 passes for 176 yards and gained 67 additional yards on option plays.

Roger Staubach of Navy and Billy Lofbridge of Georgia Tech, two of the season's most consistent quarterbacks also had good days, but failed to measure up to Douglas in overall performance.

Staubach scored two touchdowns and passed for a third in running his season's individual yardage to 1,544, an all-time Naval Academy high, in the 42-7 victory over Maryland. Lofbridge completed 20 of 34 passes in the 15-7 triumph over Florida State for 246 yards and had an overall total of 274 yards for the day.

"They're more graceful," But Beard, the athletic director, still isn't convinced. "I'm having a hard time getting used to it," he protested.

For the moment, though, he needsn't fret too much about muscles. If the girls have them, they're in the right places.

Cotton Bowl Has 7 Teams on List

DALLAS (AP)—Seven teams are being eyed by Cotton Bowl officials as Texas draws steadily near the Southwest Conference football championship.

The conference champion is host team. Chief talk concerns a possible rematch of the nation's No. 1 and No. 2 teams.

Texas has held No. 1 for four straight weeks. Navy is No. 2. Navy already has appeared here this year, taking a 32-28 licking from Southern Methodist for the Middles only loss.

Cotton Bowl officials made no distinction among the seven teams they listed today as being considered. They are Navy, Army, Pitt, Mississippi, Auburn, Georgia Tech and Penn State.

One Deer Hunting Fatality Monday

THREE CREEKS, Ark. (AP)—Arkansas' first deer-hunting fatality this fall was recorded Monday, on opening day for the gun season, when Roy Hicks 37, of near Three Creeks in Union County was shot.

C. W. Hicks, an uncle, said he fired his shotgun when he heard a fence squeak and thought it was a deer. Coroner W. N. McKinney ruled accidental death.

Largest Bow and Arrow Kill

LITTLE ROCK (AP) — Jim Taylor of Wynne killed a nine-point, 200 - pound buck early Monday as deer season opened in Arkansas.

The Game and Fish Commission termed it the largest bow and arrow kill thus far in the state.

The kill was reported by Wildlife officer Wesley Flowers.

Missile Bowl in Orlando, Florida

ORLANDO, Fla. (AP) — The fourth annual Missile Bowl football game here Dec. 7 will be an All-Marine Corps affair.

Quantico Marines accepted an invitation Monday to meet the San Diego Marines in the annual game.

Arkansas' Alworth Ties League Record

NEW YORK (AP) — Lance Alworth, San Diego's baby-faced flanker back, tied an American Football League record Sunday by catching 13 passes against Boston, a performance that made him the leading ground gainer among the league's pass catchers.

Although Alworth's total of 46 catches is good for only sixth place in the standings and trails leading Art Powell of Oakland by six, he has gained 968 yards and scored eight touchdowns. Alworth's catches have been worth a fantastic average of 21 yards.

Clem Daniels recaptured the rushing lead when he picked up 122 yards in 31 carries for Oakland in the Raiders' 22-7 Friday night victory over Kansas City.

Tobin Rote of San Diego remained first place among the passers with Jack Kemp of Buffalo close behind. Rote has averaged 9.5 yards per attempt and has completed 114 of 182 for 14 touchdowns.

Gino Cappelletti, Boston's place kicker, widened his impressive lead in the scoring department with a total of 87 points to 53 for George Blanda of Houston.

Abe Martin Is Hung in Effigy

By THE ASSOCIATED PRESS

It was later than usual coming but effigy time has finally arrived in the Southwest Conference. It might have some effect on a big game scheduled Saturday when Texas, No. 1 in the nation, meets Texas Christian, which can't even get among "those teams that received votes."

The effigy was strung up for the benefit of Coach Abe Martin of Texas Christian. He met it with the same aplomb of 1955 when he said: "It didn't even look like me; I'm much more handsome than that."

This time Abe cracked that "this makes me a two-year letterman." And he referred to 1956 when the effigy showed up following TCU's loss to Texas Tech. The Frogs won their next three games and went to the Cotton Bowl where they trimmed Syracuse.

Coach Darrell Royal of Texas said he didn't think any publicity should be carried on effigies and would suggest to the sports writers that they reach an agreement to leave out such news.

But be that as it may, it could be that the effigy might get Martin's team all fired up so it would give Texas a tough ball game Saturday at Austin despite its poor record—the cause of the effigy.

Prospects were that Texas and Texas Christian would be in top condition when they clash. There were no injuries at TCU and Texas had only fullback Harold Philipp limping with a sprained ankle. But Royal thought he would be ready to play Saturday.

Coach Frank Broyles of Arkansas was worrying about the speed of Southern Methodist as he prepared his Razorbacks for a Dallas invasion Saturday. "They've got more quickness than anyone we've played," he said.

Arkansas was in good shape for the game and Coach Hayden Fry of Southern Methodist figured his team would be in its best physical condition in weeks.

Rice had no new injuries, as it started preparations for a game with Texas A&M at Houston Saturday. Texas A&M was cheered by the return of tackle Ray Gene Hinz, who missed the last two games with a knee injury.

Baylor started getting ready for Kentucky, whom the Bears play at Waco, by only listening to a scout report. Six players including quarterback Don Trull, sported an assortment of injuries but none was expected to keep anybody out of the Kentucky game. Trull had a split lip.

Texas Tech plays Texas Western at El Paso Saturday night and will be without the services of fullback Leo Lowery. Lowery appears to be lost for the remainder of the season.

Porks Told of SMU Quickness

FAYETTEVILLE, Ark. (AP) — The Arkansas Razorbacks prepared to face a speedy backfield and line Monday as they began preparations for Saturday's game with Southern Methodist.

Coach Frank Broyles said the Ponies had more quickness than anyone the Arkansas team has met this year. "The quarterbacks and the tailbacks are extremely quick,"

No Solution Reached by Committee

By W. B. RAGSDALE JR.
Associated Press Staff Writer

WASHINGTON (AP) — The U.S. Olympic Committee has ended its last session before the 1964 Olympics with no permanent solution in sight for the split between the Amateur Athletic Union and the colleges.

Neither the AAU nor the National Collegiate Athletic Association showed any letup during the two-day biennial meeting of the hostilities that once threatened to wreck America's hopes next year in Tokyo. The meeting ended Monday.

After mediation by Gen. Douglas MacArthur, both sides agreed earlier this year to a truce in their conflict until after the 1964 Olympics.

However, this didn't stop both sides from maneuvering for more power on the Olympic Committee. They kept up a running battle throughout the two days.

Just before final adjournment, committee president Kenneth L. (Tug) Wilson commented:

"I leave here with a heavy heart. . . I was sincere in my plea that we should not have bloc voting, that we should consider each issue on its merits."

The conflict began Sunday when AAU forces reversed the committee's board of directors on the question of granting a newly formed federation sanction to represent the United States on the International Federation for Baseball.

The NCAA backed the high schools and junior colleges in seeking more votes in the new organization. The AAU opposed and it was voted down.

The NCAA wanted President Kennedy given authority to name three members of the board of directors to represent the public and help mediate the dispute. The AAU, which once favored this, opposed it and it was beaten.

As adopted by the committee, the armed forces membership was increased from one to four on the board of directors, and President Kennedy will name one non-voting member to represent the inter-agency committee on international sports.

The AAU remained in complete command throughout the session, winning every vote. And the net effect of the voting realignment is to give it further strength.

Broyles said. "They've got speed in both the backfield and the line."

Trainer Bill Ferrell reported no major injuries resulted in the loss against Rice last Saturday.

Shoots Horse From Under a Warden

JONESBORO, Ark. (AP) — A 16-year-old hunter drew a bead on a "deer" and brought down a horse carrying a game warden Monday on the first day of Arkansas' first deer hunting period.

Lowell Hazel of Jonesboro, the warden, was not hurt. He said the horse chased the youth but didn't harm him.

The horse was being examined by a veterinarian, who said he would know in two days whether the animal would be permanently injured. It was struck in the chest, foreleg and left shoulder by pellets from a 12 gauge shotgun.

The accident happened in woods nine miles north of Jonesboro.

The hunter was in a party with three other youths. Hazel said the woods near Jonesboro had many hunters as he had ever seen.

Robertson Leads Pro Statistics

NEW YORK (AP)—Big O — Oscar Robertson of the Cincinnati Royals—held the National Basketball Association lead in both scoring and assists in the latest figures released today, but the NBA news continued to be the new accent on defense.

Robertson hit 29 points in each of three games during the week to run his total to 333 points in 13 games. He added 22 assists to make it 122 in that department.

Over-all, the nine clubs were averaging 108.9 points per game, compared to 116.0 at the same point last year. Shooting percentage were off from .432 to .426, as well.

The San Francisco Warriors, with a new image under Coach Alex Hannum, are holding their opponents to 97.3 points a game, nearly seven points less than the next stingiest team, the Boston Celtics.

Will Chamberlain of the Warriors continued to lead the league in scoring percentage, 30.6 per game, but well off his normal pace as he concentrates on defense.

Charlie Vaughn of the St. Louis Hawks retained the field goal percentage lead with a .524 average, and Cliff Hagan of the Hawks moved into the lead in free throw percentage with a .914 average.

Jerry Lucas of Cincinnati held his rebound lead with 224. Bill Russell of the Celtics had the top average, 24.4 a game.

Goes From College Into Fishing Job

By HAROLD CLAASSEN
Associated Press Sports Writer

CORTLAND, N.Y. (AP)—This is the kind of life Leon Chandler has led—

He went directly from college to a career of fishing for pay. He's only 38 and isn't thinking of retiring. Just what would he retire to?

He is the vice-president of a company that makes fishing lines and as such he has visited virtually every lake and stream in the United States and many throughout the world. He's just returned home from an international fair at Poznan, Poland, where he represented 30 American firms and the fishing gear they make.

Fishing in Poland, as in the United States, is the country's greatest participant sport. There are these differences: In the U.S. fishing must compete with golf, bowling, tennis, motorizing and TV watching for the angler's time. In Poland there are few if any distractions. Besides that, a successful Polish fisherman eats better. Meat is scarce.

The Poles, then, were more than just interested in what Chandler had to show. They were amazed. What Americans consider commonplace, such as a push button spinning reel, is regarded as extreme luxury there. And the inexpensive lures, flies and special lines Americans take for granted are either non-existent or, when available, priced beyond Polish reach.

News of the amazing American fishing tackle spread like wildfire in Poland. Visiting U.S. Sen. Philip Hart, D-Mich., was told by a train engineer some 500 miles from Poznan that the U.S. fishing exhibit was the best thing at the International Fair. And a group of Russian army officers, including a general, requested a special demonstration by Chandler.

He obliged.
